UNIVERSITY OF MONTANA 1975 FALL ENROLLMENT
REACHES ALL-TIME NET HIGH OF 8,826

state + cs +

MISSOULA--

The 1975 fall quarter enrollment at the University of Montana in Missoula has reached an all-time high net figure of 8,826 students, which is 26 above the previous all-time high net enrollment of 8,800 in the fall of 1971 for a comparable time period.

Pre-quarter enrollment estimates for the fall of 1975 indicated that this fall's enrollment was expected to be slightly lower than the net enrollment of 8,566 for the 1974 fall quarter. However, the net enrollment this fall is 260 above the 1974 fall quarter net enrollment at UM.

This year's fall quarter shows a gain in the number of women over last year--3,542 this fall compared with 3,340 last year, an increase of 202. The number of men has grown to 5,284 this year from 5,226 last year, an increase of 58 students.

Other statistics released by the office of Dr. Philip T. Bain, director of admissions and records at UM, show that other enrollment gains have been recorded by the University:

--An increase of 151 graduate students this fall, from 1,298 last year to 1,449 this year.

--An increase of 186 part-time students this fall, from 1,368 for the 1975 fall quarter compared with 1,182 last fall.
